Time Frame (Req.): One 45	Goal (Req.): To help students understand how locating countries in			
minute class period	the news provides a context for studying current events and for			
· · · · · · · · · · · · · · · · · · ·		as an integrated system of regions.		
	occing and cartin	as an integrated s	,,,,,,,,,,,,,,,,,,,,,,,,,,,,,,,,,,,,,,,	
	Objective (Reg.):	Students will be a	able to use an atlas to locate	
-		ries on a world map.		
Materials Needed (Req.):		New Vocabulary (Opt.):		
One current newspaper (Section A) for		- Vocabalary	(Ορί.).	
each group of 3-5 students. Online		•		
newspaper editions or news websites can		•		
be used if student groups have access to		•		
computers		•		
 1-2 pairs of scissors per group 				
 One large sheet of butcher (chart) paper 				
(18" x 24") with a blank world map (8.5" x				
11") pasted in the center				
One glue stick or glue bottle per group				
Rulers (optional)				
If using online news sources, students will				
need access to a printer				
LCD projector				
Anticipatory Set/Introduction [Inqu	uiry Question is re	quired] (Req.): Wh	nere in the world is news being	

made? Show students http://www.newsworldmap.com to show students an example of what they will be doing (or have done) with real newspapers.

Instructional Sequence/Procedure (Req.):

- 1. Define news terms: Dateline and News lead. Dateline: name of city given at beginning of news story that originates from outside of the newspaper's community. Datelines are not given in stories that originate within the newspaper's community. News Lead: the first one or two paragraphs of a news story; a news lead will usually answer who, what, where and sometimes why.
- 2. Discuss with students how they get their news and the differences between online and print sources.
- 3. Explain to students that they will be working in groups to choose at least 10 newspaper articles each with a different dateline.
- 4. Explain and demonstrate to students how to clip a news article to show a news lead (first paragraph or two) and dateline (where the story is coming from)

- 5. Explain that students will paste their news lead with dateline showing onto the butcher paper and using their atlas as a resource, draw a line from the news lead to the place in the world given in the dateline. (If students have never used an atlas, they will need instruction is how to do so.)
- 6. Allow 20-25 minutes for the students to work, telling them to work out some sort of assembly line: cut first, paste and then find place in atlas.
- 7. Monitor student groups to keep students on task and to help those who are having difficulty using and atlas.
- 8. Clean up.
- 9. Extending the Lesson: Groups finish the map TOADS (Title, Orientation, Author, Description [Key], Scale)
- 10. Students add to their maps by continuing to look for different datelines.
- 11. Find patterns of where news is coming from over days, weeks and graph results.
- 12. Research countries in the news.
- 13. Find a pen pal in a country where news is being made.
- 14. Learn more about holidays in countries making news. Plan a celebration.
- 15.
- 16.
- 17.
- 18.
- 19.
- 20.

Formative Evaluation (Req.): Discuss problems students had and how they were solved. Ask students to share what they learned and to show off their news maps.

Assessment (Req.): Collect maps.

Iowa Core Curriculum Standards Used (Req.):

- Geography, grade 6-8: Understand the use of geographic tools to locate and analyze information about people, places, and environments.
- Geography, grade 6-8: Understand how geographic and human characteristics create culture and define regions.
